

CLAIMS:

What is claimed is:

- 5 1. A method of bookmarking a path to a web page, said path
 including a plurality of Web pages, said method
 comprising the steps of:

 successively accessing the plurality of Web pages; and
10
 bookmarks, all at once, the plurality of Web pages.

 2. The method of Claim 1 wherein a number less than the
 plurality of the accessed Web pages are bookmarked.
15
 3. The method of Claim 2 wherein the bookmarked Web pages
 are displayed as a chain of bookmarked Web pages.

 4. The method of Claim 3 wherein the bookmarked Web pages
20
 are displayed in the chain in the order accessed.

 5. The method of Claim 4 wherein accessed Web pages that
 are not bookmarked are part of the chain of bookmarked
 Web pages but are not live.
25
 6. The method of Claim 3 wherein accessed Web pages that
 are not bookmarked are not part of the chain of
 bookmarked Web pages.

30 7. A computer program product on a computer readable
 medium for bookmarking a path to a Web page, said path

including a plurality of Web pages, said computer program product comprising:

5 code means for successively accessing the plurality of Web pages; and

code means for bookmarking, all at once, the plurality of Web pages.

10 8. The computer program product of Claim 7 wherein a number less than the plurality of the accessed Web pages are bookmarked.

15 9. The computer program product of Claim 8 wherein the bookmarked Web pages are displayed as a chain of bookmarked Web pages.

20 10. The computer program product of Claim 9 wherein the bookmarked Web pages are displayed in the chain in the order accessed.

25 11. The computer program product of Claim 19 wherein accessed Web pages that are not bookmarked are part of the chain of bookmarked Web pages but are not live.

12. The computer program product of Claim 10 wherein accessed Web pages that are not bookmarked are not part of the chain of bookmarked Web pages.

30 13. An apparatus for bookmarking a path to a Web page, said path including a plurality of Web pages, said apparatus comprising:

means for successively accessing the plurality of Web pages; and

5 means for bookmarking, all at once, the plurality of Web pages.

14. The apparatus of Claim 13 wherein a number less than the plurality of the accessed Web pages are bookmarked.

10 15. The apparatus of Claim 14 wherein the bookmarked Web pages are displayed as a chain of bookmarked Web pages.

15 16. The apparatus of Claim 15 wherein the bookmarked Web pages are displayed in the chain in the order accessed.

17. The apparatus of Claim 16 wherein accessed Web pages that are not bookmarked are part of the chain of bookmarked Web pages but are not live.

20 18. The apparatus of Claim 16 wherein accessed Web pages that are not bookmarked are not part of the chain of bookmarked Web pages.

25 19. A computer system for bookmarking a path to a Web page, said path including a plurality of Web pages, said computer system comprising:

a storage device for storing code data; and

30

a processor for processing said code data to successively access the plurality of Web pages and to bookmark, all at once, the plurality of Web pages.

- 5 20. The computer system of Claim 19 wherein a number less than the plurality of the accessed Web pages are bookmarked.
- 10 21. The computer system of Claim 20 wherein the bookmarked Web pages are displayed as a chain of bookmarked Web pages.
- 15 22. The computer system of Claim 21 wherein the bookmarked Web pages are displayed in the chain in the order accessed.
- 20 23. The computer system of Claim 22 wherein accessed Web pages that are not bookmarked are part of the chain of bookmarked Web pages but are not live.
24. The computer system of Claim 22 wherein accessed Web pages that are not bookmarked are not part of the chain of bookmarked Web pages.
